or *Leap year*, and from the Worlds  
Creation, 5630.

Wherein is contained the description of  
the four quarters of the year : As also a  
Chronological Table of many things worth  
remembrance, since the Creation, until this  
present year, 1666. Collected for the most  
part out of Ecclesiastical History, and other  
good Authors, something augmented.

## A Description of the four Quarters of the year, and first of Winter.

○ in ♄ m. K.

**A**ccording to the custom of writers in this kind, **Winter** Quarter is the first Quarter, which took beginning the 11. day of December, at which time the Sun entered into the first degree of the cold and dry sign Capricorn, being the most remote from us in his farthest South Declination, causing the dayes with us to be shortest, and the nights longest: Which Quarter continuing until the Sun hath slowly passed through Capricorn, Aquarius, and Piske, This Quarter doth naturally resemble Old age.

Of the Spring.

○ in ♈ m. II.

**T**his Quarter doth take beginning the 10 of March, at which time the Sun entrench into the first minute of Aries, and doth continue whilst the Sun is a passing through these 3 vernal signs, Aries, Taurus, and Gemini. This Quarter doth resemble growing youth.

Of Summer.

○ in ♋ m.

**T**he Summer Quarter doth take his beginning when the Sun doth enter into the first degree of Cancer, which will be this year the 11 of June, and doth continue whilst the Sun passeth through Cancer, Leo, Virgo, now are the dayes longest, and the ay: hottest; therefore but for necessity, bid Physick Adieu.

Of Autumn.

○ in ♏ m. I.

**A**utumn or Harvest Quarter (commonly called the Fall of the Leaf, of some the latter Spring) doth begin when the Sun doth enter into the first degree of Libra, making again the day and the night of equal length; which will be this year, the 13 of September, and doth continue whilst the Sun doth pass through Libra, Scorpio, and Sagittarius. This Quarter doth fitly resemble declining age, and Phlegmatick complexion.

A brief Chronological Description  
of many things worthy of memory that have  
hapned since the Creation unto this present  
year of our Lord 1666. with the year of  
the World in which they hapned in  
the first Column; faithfully col-  
lected from many good Authors.
